

HOW TO ACCESS YOUR COURSES IN TWIRLED

IBTF's TWIRLED staff has been working hard to revamp and rearrange our current resources and courses, making them easier to access and understand. We appreciate everyone's patience while we work through this process. To complete this work, it has unfortunately been necessary to hide certain courses for a period of time.

Please be assured that all records have been kept while we have been moving forward: If you take a module course, you will be able to access the associated materials under '**Resources**'. For example, if you took Module 1 in 2024, you will find the materials under "**Module 1 Resources**". Please note that only people who have enrolled in and completed the course will have access to the Module 1 Resources.

A new Module 1 course will open each year. For example, the **2026** Module 1 course is now open. At the end of the year, this course will close and the **2027** Module 1 course will open. The same process applies to Module 2 and all future courses.

This is to enable us to better track all participants' records and grades.

How to access your grades:

- **View All Courses Overview:** Click your profile name in the upper right corner and select **Grades**. This shows a dashboard of your current grades for all courses. You can see here what you have completed. Anything not showing means that it is not yet completed.
- **Within a Specific Course:** Click on a course card on your dashboard, then look for the **Grades** link in the top navigation bar, here you can see a detailed grade report. The first column in the grades is your overall total % pass rate. When you take the tests, these are all added together to give you an overall grade. For Modules 1, 2, 3, 4, you need to achieve an overall total grade of 70%. This does NOT apply to module 5. As this is the Master Judges Course, you do need to pass all components of the course. There are also different parts to the course, NJS Freestyle Solo, Pair, and Teams. You will need to review your grades for each part of the course.
